UPFRONT SPARK WHAT'S HOT • WHAT'S COOL • WHAT'S NOW

She's brash. She's brazen. She's one bad ass bitch! (Hey, we're only talking like *she's* taught us!) Yes, she's got a potty-mouth that makes Lil Wayne blush, and no, we're not talking about your mom—or *our* moms for that

matter—but we are here to tell you that loudmouth, love-her-or-hate-her Lisa Lampanelli is back with a new CD and DVD that delve into her usual shtick as she tramples upon the likes of...well, everybody. In *Tough Love* she offends us all: the gays, asians, black people, Mexicans, those in interracial relationships, boring white folk...and the list goes on. Nobody is safe from this bawdy broad—but it's her broad humor so many gays have embraced because she makes no qualms about her intense disdain for all those who hate on the gays—even as she skewers us like roasting kabobs.

Tough Love is available April 5 on CD, DVD and digital download at amazon.com.
